**Descriptions:**

This fully revised new edition brings you today's best knowledge on every clinical condition encountered in nephrology in one concise yet comprehensive, clinically focused source. A team of international experts present the latest information on pathophysiology, diagnosis, and management for a full range of kidney disorders. A full-color, highly visual, meticulously crafted format makes this material remarkably easy for you to access and apply. Plus, a bonus CD-ROM containing all of the figures and tables from the book lets you create electronic presentations.

Effectively and efficiently diagnose the full range of neoplastic and non-neoplastic diseases of the head and neck with this peerless source of pathology guidance! 2,240 phenomenal illustrations depict the histologic, immunohistochemical, cytologic, and diagnostic imaging appearance of every type of head and neck pathology, including brand-new coverage of thyroid and parathyroid disorders. You'll also find completely new guidance on identifying intraoperative specimens, applying the latest molecular biological and cytogenetic techniques, and much more.

Atlas and Synopsis of Lever’s Histopathology of the Skin

Author: David E. Elder
Format: Hardbound, 478 pages
Publisher: Lippincott Williams & Wilkins
ISBN-0-7817-6845-4
Reserved
RL
95
A75
2007

Descriptions:
This full-color atlas presents an algorithmic pattern recognition approach to differential diagnosis of skin diseases. Whereas Lever's classifies diseases by pathogenesis, this atlas aids in differential diagnosis of unknown cases by classifying diseases morphologically, based on their location in the skin and the patterns and cell types seen through the microscope. Within each morphologic category, prototypic disorders are described and illustrated with full-color photomicrographs, and a list of differential diagnostic possibilities is presented. The atlas contains over 1,300 full-color illustrations.
A bound-in image bank CD-ROM contains all the book's illustrations.

Katzung and Trevor’s Pharmacology : Examination and Board Review
